Inclusion Support

Reach works with city parks and recreation departments to provide an extra staff person at a program when a person with a disability requests additional accommodations to be successful. These inclusion facilitators work together with coaches and instructors to blend in, providing the minimum support needed at any given time and encourage independence and skill building in all of the participants. Inclusion staff members support children and adults in all types of programs.

TRAIL Transportation

TRAIL by Reach provides transportation for adults with developmental disabilities living in Bloomington, Eden Prairie, Edina and Richfield. We transport our riders to recreation, leisure and educational programs offered by Adaptive Recreation & Learning Exchange (AR&LE) and some adaptive recreation programs offered by Reach. All programs are specifically designed to meet the needs of people with developmental disabilities, providing the independence to enrich their lives, mentally, creatively and socially.
